Name

นาง เบญจวรรณ ญาณิสรารักษ์กุล

Hospital Number

100713772

|                |                              |             |            |
|----------------|------------------------------|-------------|------------|
| Name:          | นาง เมญจวรรณ ญาณิสรางค์กุล   | HN:         | 100713772  |
| Date Of Birth: | 30/10/54                     | Age:        | 69         |
| Sex:           | Female                       | Visit Date: | 20/04/2024 |
| Doctor:        | Watcharaphong Saechere (Dr.) |             |            |

Health Screening Report Summary

Standard Measurements / Vital Signs

|                       |               |                |                  |
|-----------------------|---------------|----------------|------------------|
| Weight                | 90 กิโลกรัม   | Temperature    | 36.6 เซลเซียส    |
| Height                | 165 เซนติเมตร | Pulse          | 58 /นาทื         |
| BMI (Body mass index) | 33.06         | Respiration    | 18 /นาทื         |
|                       |               | Blood pressure | 165 / 82 มม.ปรอท |

Family History

Mother

CA - Lung cancer

Father

Essential hypertension

DM - Diabetes mellitus

Social History

Alcohol Never drink/drank alcohol

## Tests

|       |                |
|-------|----------------|
| Test: | Blood Pressure |
|-------|----------------|

| Assessment        | Recommendation |
|-------------------|----------------|
| ความดันโลหิต ปกติ |                |

|       |     |
|-------|-----|
| Test: | CBC |
|-------|-----|

| Assessment                     | Recommendation |
|--------------------------------|----------------|
| ความสมบูรณ์ของเม็ดเลือด : ปกติ |                |

|       |                   |
|-------|-------------------|
| Test: | Blood Sugar (FBG) |
|-------|-------------------|

| Assessment                                | Recommendation                                                                                                                                                                                                                       |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| มีระดับน้ำตาลในเลือดสูงกว่าปกติ = 106 mg% | การรักษาระดับน้ำตาลในเลือดให้อยู่ในเกณฑ์ปกติจะช่วยลดความเสี่ยง<br>เรื่องโรคหัวใจ โรคไต การอุดตันของเส้นเลือดที่ไปเลี้ยงสมอง<br><br>ลดของหวาน อาหารจำพวกแป้ง เครื่องดื่มแอลกอฮอล์(กรณีดื่ม)<br>ออกกำลังกายอย่างสม่ำเสมอ ควบคุมน้ำหนัก |

|       |       |
|-------|-------|
| Test: | HbA1c |
|-------|-------|

| Assessment                        | Recommendation                              |
|-----------------------------------|---------------------------------------------|
| น้ำตาลสะสมในเลือด ผิดปกติเล็กน้อย | ใช้ยาประจำตัวอย่างต่อเนื่องและพบแพทย์ตามนัด |

|       |                 |
|-------|-----------------|
| Test: | Kidney Function |
|-------|-----------------|

| Assessment                                 | Recommendation |
|--------------------------------------------|----------------|
| การทำงานของไต (BUN) ปกติ                   |                |
| การทำงานของไต (Creatinine) ปกติ            |                |
| การทำงานของไต (eGFR(MDRD Calculation) ปกติ |                |

|       |                            |     |           |

| ระดับไขมัน (โคเลสเตอรอล) สูง<br>ระดับไขมัน (ไตรกลีเซอไรด์) สูง<br>ไขมันชนิดดี (HDL-C) ปกติ<br>อัตราส่วนไขมันโคเลสเตอรอล ต่อไขมันชนิดดี (CHOL/HDL-C) สูง<br>(มีความเสี่ยงต่อโรคหัวใจและหลอดเลือด)<br>ไขมันชนิดไม่ดี (LDL-C) สูง<br>อัตราส่วนระดับไขมันชนิดไม่ดีต่อระดับไขมันชนิดดี (LDL/HDL-C) สูง | ออกกำลังกายอย่างสม่ำเสมอและรับประทานอาหารไขมันต่ำ<br>หลีกเลี่ยงอาหารที่มีไขมันสูงและออกกำลังกายให้สม่ำเสมอ<br>เพื่อเพิ่มไขมันชนิดดี (HDL-C) |

|       |     |
|-------|-----|
| Test: | CEA |
|-------|-----|

|                                        |                |
|----------------------------------------|----------------|
| Assessment                             | Recommendation |
| สารบ่งชี้มะเร็งทางเดินอาหาร (CEA) ปกติ |                |

|       |     |
|-------|-----|
| Test: | AFP |
|-------|-----|

|                               |                |
|-------------------------------|----------------|
| Assessment                    | Recommendation |
| สารบ่งชี้มะเร็งตับ (AFP) ปกติ |                |

|       |                            |     |           |
|-------|----------------------------|-----|-----------|
| Name: | นาง เบญจวรรณ ญาณิสรางค์กุล | HN: | 100713772 |
|-------|----------------------------|-----|-----------|

|       |         |
|-------|---------|
| Test: | CA 19-9 |
|-------|---------|

|                                         |                |
|-----------------------------------------|----------------|
| Assessment                              | Recommendation |
| สารบ่งชี้มะเร็งระดับอ่อน (CA 19-9) ปกติ |                |

|       |        |
|-------|--------|
| Test: | CA 125 |
|-------|--------|

|                                     |                |
|-------------------------------------|----------------|
| Assessment                          | Recommendation |
| สารบ่งชี้มะเร็งรังไข่ (CA 125) ปกติ |                |

|       |         |
|-------|---------|
| Test: | CA 15-3 |
|-------|---------|

|              |                |
|--------------|----------------|
| Assessment   | Recommendation |
| CA 15-3 ปกติ |                |

|       |         |
|-------|---------|
| Test: | Free T4 |
|-------|---------|

|                             |                |
|-----------------------------|----------------|
| Assessment                  | Recommendation |
| ฮอร์โมนไทรอยด์ Free T4 ปกติ |                |

|       |     |
|-------|-----|
| Test: | TSH |
|-------|-----|

|                         |                |
|-------------------------|----------------|
| Assessment              | Recommendation |
| ฮอร์โมนไทรอยด์ TSH ปกติ |                |

|       |       |
|-------|-------|
| Test: | HBsAg |
|-------|-------|

|                                              |                |
|----------------------------------------------|----------------|
| Assessment                                   | Recommendation |
| การติดเชื้อไวรัสตับอักเสบบี ไม่พบการติดเชื้อ |                |

|       |                            |     |           |

|            |                |
|------------|----------------|
| Assessment | Recommendation |
| ปกติ       |                |

|       |             |
|-------|-------------|
| Test: | Chest X-Ray |
|-------|-------------|

|                            |                        |
|----------------------------|------------------------|
| Assessment                 | Recommendation         |
| มีพังผืดที่ปอดด้านล่างซ้าย | ติดตามผลกับแพทย์ของคุณ |

|       |                          |
|-------|--------------------------|
| Test: | Whole Abdomen Ultrasound |
|-------|--------------------------|

|                                                                                                                                                                                         |                                  |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------|
| Assessment                                                                                                                                                                              | Recommendation                   |
| Ultrasound อัลตราซาวด์ทั้งหน้าท้อง<br>มีไขมันไปสะสมที่เซลล์ของตับเป็น Fatty liver เท่าเดิม<br>ไตข้างซ้ายตรงกลางมีถุงน้ำขนาดเท่าเดิม<br>มีเนื้องอกที่มดลูกด้านหลัง ขนาด 1.1 ซม. เท่าเดิม | ตรวจอัลตราซาวด์ช่องท้องปีละครั้ง |

|       |                            |     |           |
|-------|----------------------------|-----|-----------|
| Name: | นาง เบญจวรรณ ญาณิสรางค์กุล | HN: | 100713772 |
|-------|----------------------------|-----|-----------|

|       |                         |
|-------|-------------------------|
| Test: | Electrocardiogram (EKG) |
|-------|-------------------------|

#### Assessment

เส้นเลือดอาจไปเลี้ยงหัวใจด้านล่างไม่เพียงพอ

#### Recommendation

ปรึกษาแพทย์อายุรกรรมโรคหัวใจเพื่อการวินิจฉัยหรือรักษาต่อไป  
ปรึกษาแพทย์อายุรกรรมโรคหัวใจหากมีอาการผิดปกติเช่น  
เจ็บหน้าอก ใจสั่น เหนื่อยง่าย หายใจเป็นลม หหมดสติ

|       |     |
|-------|-----|
| Test: | PAP |
|-------|-----|

#### Assessment

ผลการตรวจ ปกติ

#### Recommendation

ตรวจหามะเร็งปากมดลูกทุก 1 ปี

|       |                                  |
|-------|----------------------------------|
| Test: | Eye Screening Examination Report |
|-------|----------------------------------|

#### Assessment

การมองเห็น :  
ไม่ใส่แว่น  
ตาขวา: 20/30-1  
ตาซ้าย: 20/30-2  
ตาบอดสี ปกติ  
ความดันลูกตา :  
ตาขวา (mmHg) : 8  
ตาซ้าย (mmHg): 12

#### Recommendation

ตรวจพบความผิดปกติ  
Mild degree of dry eye both eyes.  
Pinguecula both eyes.  
Pseudophakia both eyes.(Multifocal IOL ; both eyes)  
ตรวจดูการเปลี่ยนแปลง 1 ปี  
ตรวจตาโดยละเอียดเกี่ยวกับ  
Large cup to disc ratio of the optic nerve head inside both  
eyes (glaucoma suspected); advise glaucoma investigations  
such as visual field testing, Optic nerve Coherent Topography  
and fundus photography.

|       |                            |
|-------|----------------------------|
| Test: | Bone Density L-Spine & Hip |
|-------|----------------------------|

#### Assessment

|-------|------------------------|
| Test: | General Recommendation |
|-------|------------------------|

### Recommendation

ออกกำลังกายอย่างสม่ำเสมอ

ควรรับการฉีดวัคซีนป้องกันไข้หวัดใหญ่

ตรวจสุขภาพปีละครั้ง

แนะนำให้ควบคุมอาหารประเภทแป้ง น้ำตาล และไขมันจากสัตว์ทุกชนิด กะทิ มะพร้าว ให้น้อยลง

ถ้าหากเนื้องอกที่มดลูกโตมากกว่า 5 ซม. ให้เอาออก

## Laboratory Report

Name: Benjawan YANISRANGKUL

เบญจวรรณ ญาณิสรารังกุล

HN: 100713772

DOB : 30/10/1954

Age: 69Y 5M 21D

Sex: Female

Order Date: 20/04/2024

Time: 07:32

Lab Episode Number: 24209797

Station: Medical Clinics (Building A 15C)

Order Owner: Watcharaphong Saechere (Dr.)

### Biochemistry

#### %HbA1c\*

Specimen No.24209797-4: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, EDTA Blood 3 mL - (CH)

Lavender Top

| Test  | Result Flag | Units | Ref. Range |
|-------|-------------|-------|------------|
| HbA1c | 6.0 (H)     | %     | (0.0-5.6)  |

Authorised by Panote Krasathong at 08:16 on 20/04/2024

#### BUN (Blood Urea Nitrogen) \*

Specimen No.24209797-3: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (CH) Red Top Tube

| Test | Result Flag | Units | Ref. Range |
|------|-------------|-------|------------|
| BUN  | 14.6        | mg/dL | (7.0-21.0) |

Authorised by System Auto Authorized at 08:45 on 20/04/2024

#### Creatinine and eGFR (Blood) \*

Specimen No.24209797-3: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (CH) Red Top Tube

| Test       | Result Flag | Units | Ref. Range  |
|------------|-------------|-------|-------------|
| Creatinine | 0.70        | mg/dL | (0.55-1.02) |

Comment: Test results should always be used in conjunction with the patient medical history, clinical examination and other findings.

Remark: Any tests followed by \* symbol represents those with ISO 15189 or ISO 22870 Accreditation

Flag message such as (L) means below low normal, (H) means above high normal, c means correction.

(LL) means a critical low value, (HH) means a critical high value

### Creatinine and eGFR (Blood) \*

| Test           | Result | Flag | Units                     | Ref. Range |
|----------------|--------|------|---------------------------|------------|
| eGFR (CKD-EPI) | 93.7   |      | mL/min/1.73m <sup>2</sup> |            |
| eGFR for Thai  | 77.9   |      | mL/min/1.73m <sup>2</sup> |            |

Comment: eGFR (CKD-EPI) was calculated using the 2021 CKD-EPI Equation.

Authorised by System Auto Authorized at 08:45 on 20/04/2024

### FBG (Fasting Blood Glucose) \*

Specimen No.24209797-3: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (CH) Red Top Tube

| Test                        | Result | Flag | Units | Ref. Range |
|-----------------------------|--------|------|-------|------------|
| FBG (Fasting Blood Glucose) | 106    | (H)  | mg/dL | (70-99)    |

Authorised by System Auto Authorized at 08:45 on 20/04/2024

### Liver Function Tests (TP, ALB, Glob, DB, TBil, ALP, AST, ALT, GGT) \*

Specimen No.24209797-3: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (CH) Red Top Tube

| Test             | Result | Flag | Units | Ref. Range  |
|------------------|--------|------|-------|-------------|
| Total Protein    | 7.44   |      | g/dL  | (6.40-8.30) |
| Albumin          | 4.13   |      | g/dL  | (3.40-4.80) |
| Globulin         | 3.31   |      | g/dL  |             |
| Direct Bilirubin | 0.2    |      | mg/dL | (0.0-0.5)   |
| Total Bilirubin  | 0.5    |      | mg/dL | (0.2-1.5)   |

Comment: Test results should always be used in conjunction with the patient medical history, clinical examination and other findings.

Remark: Any tests followed by \* symbol represents those with ISO 15189 or ISO 22870 Accreditation

Electronically signed by Manop Huntrakoon, M.D.

at 11:40 on 21/04/2024

**Comment:** 1. The 2014 Bethesda System for Reporting Cervical cytology  
2. Cytological study is a "screening test" and not a "diagnostic test". Clinical correlation is recommended.  
3. The c symbol means correction.

**Hormone and Tumor Marker****AFP (Alpha-Fetoprotein), Blood \***

Specimen No.24209797-1: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (IM) Red Top Tube

| Test       | Result Flag | Units | Ref. Range |
|------------|-------------|-------|------------|
| AFP, Blood | 2.7         | ng/mL | (0.0-15.0) |

**Additional Information:**

The testing method is an Chemiluminescent microparticle immunoassay (CMIA) manufactured by Abbott Laboratories and is tested on the Architect system. The concentration of alpha-fetoprotein (AFP) in a given specimen, determined with assays from different manufacturers, can vary due to differences in assay methods and reagent specificity. Values obtained with different assay methods cannot be used interchangeably.

Authorised by System Auto Authorized at 09:13 on 20/04/2024

**CEA (Carcinoembryonic Antigen), Blood \***

Specimen No.24209797-1: Collected 20/04/2024 07:32, Received 20/04/2024 07:48, Plain Blood 5 mL - (IM) Red Top Tube

| Test       | Result Flag | Units | Ref. Range |
|------------|-------------|-------|------------|
| CEA, Blood | 3.3         | ng/mL | (0.0-5.0)  |

**Reference value for CEA:**

Non-Smoker : 0-5 ng/mL

Smoker : 0-10 ng/mL

**Additional Information:**

The testing method is an Chemiluminescent microparticle immunoassay (CMIA) manufactured by Abbott Laboratories and is tested on the Architect system. The concentration of CEA in a given specimen, determined with assays from different manufacturers, can vary due to differences in assay methods and reagent specificity. | <b>PANCREAS:</b>        | Normal size, shape and echoes of the visualized portion.<br>No dilatation of main pancreatic duct.                                                                                                                                              |
| <b>KIDNEYS:</b>         | Normal size, shape and parenchymal echoes.<br>No stone, solid mass or hydronephrosis.<br><u>The right renal size = 11.4x4.2 cm.</u><br><u>The left renal size = 10.7x4.6 cm.</u><br>- No change of a 1.4-cm simple left renal cyst at mid zone. |
| <b>SPLEEN:</b>          | Normal size and parenchymal echoes.                                                                                                                                                                                                             |
| <b>AORTA:</b>           | Normal caliber.                                                                                                                                                                                                                                 |
| <b>URINARY BLADDER:</b> | Smooth wall without demonstrable stone or mass.                                                                                                                                                                                                 |
| <b>UTERUS:</b>          | - No change of a 1.1-cm hypoechoic nodule at posterior wall of the uterus.                                                                                                                                                                      |
| <b>OVARIES:</b>         | Normal appearance of both ovaries.                                                                                                                                                                                                              |
| <b>OTHERS:</b>          | No mass or free fluid.                                                                                                                                                                                                                          |

**IMPRESSION**

- No change of moderate fatty liver.
- No change of a 1.4-cm simple left renal cyst at mid zone.
- No change of a 1.1-cm hypoechoic nodule at posterior wall of the uterus; probably reflecting uterine myoma.

Name: **Mrs Benjawan Yanisrangkul**

HN: **100713772** Birth Date: 30 Oct 1954

Age: 69Y 5M

Sex: Female

Acc No: 45045832/421

Acquisition Time: 20 Apr 2024 08:43

Study: Bone Density L-Spine & Hip

Reported Time: 20 Apr 2024 09:08:50

Requested by: Watcharaphong Saechere (dr.)

**BONE MINERAL DENSITIES**

**COMPARISON: 14/09/2020.**

BMD of the total L spine = 1.223 g/cm<sup>2</sup> with T- score = 2.2.

(BMD change = 0.036 g/cm<sup>2</sup> = 3.1 % from the prior study = 0.861 % per year)

BMD of the total left hip = 1.182 g/cm<sup>2</sup> with T- score = 2.9.

(BMD change = 0.034 g/cm<sup>2</sup> = 2.9 % from the prior study = 0.806 % per year)

BMD of the left femoral neck = 0.939 g/cm<sup>2</sup> with T- score = 1.3.

**IMPRESSION**

Normal bone density, according to the WHO classification. Fracture risk is not increased.  
Significant increase BMD of the lumbar spine and left hip.
